pour la vie**

Building Content and Capacity by Working Together

The World Long-Term Athlete Development creates a platform for researchers and coaches to discuss their individual discoveries for better 2-way communication and ongoing support. Both academic and coach pathways could be strengthened through more opportunities like the WLTD to convene and share experiences and learnings from each world.

Création de contenu et renforcement de capacité grâce à la collaboration

Le Symposium mondial sur le développement à long terme du participant/athlète crée une plateforme où les chercheurs et les entraîneurs peuvent échanger sur leurs découvertes individuelles, améliorant ainsi la communication et le soutien en continu. Les milieux de la recherche et de l'enseignement pourraient être renforcés grâce à un plus grand nombre d'opportunités comme le SMDLTP/A qui permet de se réunir et partager des expériences et des connaissances.

TIME

9:00-9:15	Welcome and Overview Emcee: Thomas Jones Sport for Life - International
9:15-9:45	LTAD in British Swimming Ian Freeman ASA/British Swimming - Loughborough University
