### Summary

Members discussed purpose of the advisory group, introduced members and key sport partners. The group discussed the need to have under-represented groups represented and made suggestions for new members from community sport and PT government.

The group discussed Sport for Life's and the LTAD Division's Strategic Plan and proposed key directions. There was agreement that system alignment and consistent and effective messaging needed greater focus.

The group discussed the LTAD Progress Tracker and communicated that confusion still exists among NSOs regarding its use and purpose. The group expressed interest in the possibilities of the Tracker to reduce inefficiencies in the system and assess baselines, but highlighted the importance of messaging.

The group discussed proposed LTAD division priorities that include ADM and Competition Review alignment and the need for ADM development support.

The meeting concluded discussing the best frequency to meet. Carolyn highlighted that the committee should be able to convene ahead of schedule or communicate to the group if there is something pressing to discuss or an idea to present. It was also decided that the group would meet again by phone during the first week of March.
